- As for participating fully (in spirit and actuality) and professionally, we should attend every meeting on time and emphasize that everyone must do their job independently and utilize their technical skills.
- As for the rule "Each member should abiding the rules of academic honesty", if anyone cheated or disobeyed academic honesty, we will warn for the first time and even repel him if the situation is serious.

- As for "Meeting responsibilities", we will supervise each other and help each other to make point short and clear.
- As for the rule "Respect each other", we are from the same culture background and we will keep silent when someone is talking.

2.6 How we plan to prepare

Firstly, we read carefully about the given information and focus on the problems we ought to cope with. Secondly, we arrange a period of time for conversation. Finally, we talk about the questions and distribute the workload of each other.

2.7 How do we plan to communicate

The tool we use for communication is WeChat. Usually, we arrange a period of time when we are all free and start conversation.

2.8 How we distribute the workload

We usually split the task into several parts according to people and then randomly choose a part for each of us.
